

# Revisiting the Tragedy: Common Goods in the 21st Century

Public Interest  
Environmental Law

Friday April 1 2011  
9:00 to 17:30

Institute of Advanced Legal Studies, London

This conference will explore issues surrounding four resources of common concern: Water, Air, Forests and Biodiversity. The inspiration came from Garrett Hardin's work, "The Tragedy of the Commons" circa 1968. Although generally held to be outdated, the concept speaks to the importance of effective, sustainable management of shared common resources. As such we will look at contemporary approaches and the multifaceted issues which arise in this pursuit.

Speakers include:-

**Paul Kohler** (SOAS)

**Simon Counsell** (Rainforest Foundation UK)

**Kate Harrison** (Harrison Grant Solicitors)

**Dan Glass** (Environmental Activist)

**Alan Andrews** (ClientEarth)

...with workshops on current hot topics; panel on the UK Sell off of Ancient Forests, Chaired by Tom Levitt.

The ticket price of £5 for students and £20 for professionals

CPD points available
